
Job Description

Occupational Therapist Assistant

Occupational Therapist Assistant – Part Time (15-25 hours per week – ability to grow the position to Full Time)

Aurora Eye care is a busy and expanding Optometry office in Grande Prairie, Alberta and we are looking for another amazing person to join our team. If you are looking for a challenging and rewarding career to utilize your current skills and are looking for a change then we have what you need. We are seeking a Certified Occupational Therapy Assistant who can apply and transfer those very valuable skills to our Vision therapy program.

Our therapists work one on one with patients of all ages in a therapeutic setting to treat visual difficulties through a series of exercises/activities to improve their vision. Our therapists help patients overcome learning-related vision problems, visual developmental delays, eye turns, and many other visual conditions. All vision specific training will be provided in clinic with our trained vision therapy doctors and staff.

Our therapists develop strong relationships with patients, parents and families and are devoted to the success of their patients. This is an extremely interesting and rewarding career!

We offer competitive wages and staff perks! We love our job and we have lots of fun doing it. If this sounds like the perfect career choice for you then please submit your resume and let your new adventure begin.

Hours: 15-25 hours per week.

Location: Grande Prairie, Alberta

Job Requirements:

- Licensed Occupational therapy assistant an asset but willing to train.
- Strong communication skills.
- Creative, caring and flexible personality.
